"You know when your phone rings at 12:30 a.m., it is probably not good. I was awoken from a dead sleep in the middle of the night by a phone call from my tenant saying, "Tree in house! Tree in house!" A severe wind and hail storm caused a large tree to literally cut the house in half. After I got myself together, my immediate next thought was, "Oh my goodness...DID I PAY THE PREMIUM?" Believe me, this was a feeling of panic! But I was able to relax when I remembered that all my policies that are not escrow are EFT with Central. If this policy had not been on automatic payment and I had let something slip through the cracks, this would have been financially disastrous for my family. The total payment on this claim was approximately \$85,000. Talk about true piece of mind!"

– Jan Wood of Watson Insurance Agency, Central agent AND Central policyholder

Here's what other Central policyholders are saying about the convenience of *myCentral*:

"I was recently told I should have an electronic copy of my insurance policies to take with me if I had to evacuate from my home. I was not looking forward to scanning each policy to accomplish this task. I cannot tell you how pleased I was to see I could download a copy of my policies right from your website. I have done so and have them saved in my computer and to a backup system. Now I hope I will never need to access them. Thank you for providing such an easy way to download the copies. Your website is great to navigate through."
